### Professional Background

Sanvir is a Junior Analyst in the Customer and Marketing team at Deloitte South Africa, currently part of the InfinityX Graduate Programme, with a background in Data Science from the University of KwaZulu-Natal. He is passionate about using data and technology to understand customer needs, analyze trends and help businesses build stronger relationships with their customers.

He thrives in fast-paced environments, where he enjoys solving problems, working with teams, and finding practical solutions to complex challenges. His strengths are analytical thinking, attention to detail and adaptability, enabling him to approach tasks with both a strategic perspective and a hands-on approach.

He is driven by a desire to make a meaningful impact. With a continuous learning mindset, Sanvir is always looking for new opportunities to refine his skills, contribute fresh ideas and help businesses create lasting value.
